

SERIES 1000

fully assembled vinyl patio door series

STANDARD FEATURES

- Heavy duty fully welded frame and sash with a 0.95" wall thickness that enhances thermal performance and reduces sound transmission, offering a more comfortable and quieter home.
- Fully weatherstripped frame and sash provides superior resistance to air and water infiltration.
- Reinforced meeting rails and pull handle for added strength and durability.
- Extruded nailing fin.
- Double weatherstripped interlock and reinforced meeting rails provide extra weather protection.
- Full 1" thick tempered insulated glass with optional high performance glass options.
- Three standard side-lite sizes available.

The Series 1000 sliding patio door offers quality energy efficient options while featuring a sturdy, simple and elegant design for quick installation.

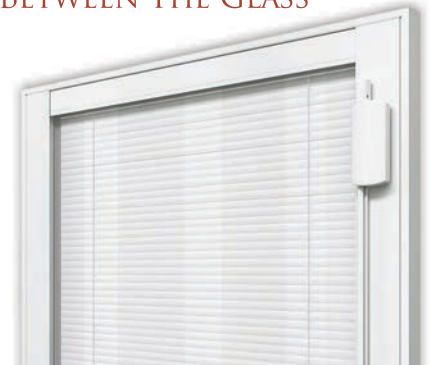

Endless Options

OPTIONAL LIFT & TILT BLINDS BETWEEN THE GLASS

These cordless integral blind systems are fully enclosed and therefore protected completely from damage by slamming doors, pets and children. The fingertip control lets you tilt the blinds and raise and lower them the entire length of the door glass.

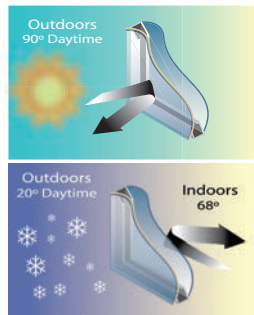

COLORS

ENERGY GLASS OPTIONS

- LowE & Argon
- **Energy Smart Package:** Dual pane 1" I.G. with softcoat LowE, Argon Gas, and Ultra Intercept Spacer.

Note: Doors with blinds are only available with LowE glass.

OPTIONAL DOOR COLORS

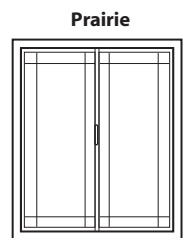

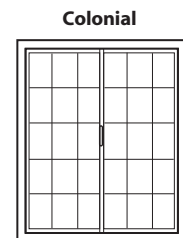

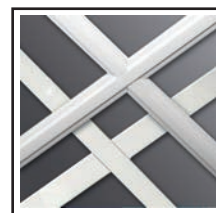

Custom painted colors available.

OPTIONAL FOOTLOCK

This optional lock mounts to bottom of active door panel and allows partial ventilation when door is open.

GRIDS

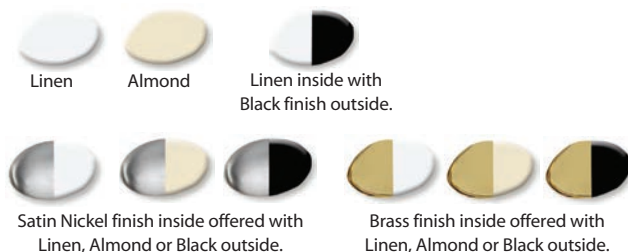

Choose from flat or contour grids between the glass for easy cleaning.

DELUXE HANDLE SET

All handle sets offer a standard key lock feature.

OPTIONAL MULTI-POINT LOCK

A unique locking system that secures the door in two or more places for added security.
